

# LOVE

by Lennon & Maisy Stella, (Personification)

Oh tumblin' leaf  
You fly so high  
Let's go chasin'  
Butterflies

We follow clouds (we follow clouds)  
Up in the air (up in the air)  
Painting pictures  
Of fairy tales

Oh, summer sun  
Hold me in your arms

I love you Mother Nature  
Your sunny fields of green  
I love your taste of freedom  
Your singing in the wind

I love, I love  
Breathin' deeply  
To smell your summer rain  
I love, I love  
When you kiss me  
With your sunlight on my face

I love, I love

I lay my head  
Under the tree  
How many seasons  
He might have seen

The golden fields (the golden fields)  
They softly bow (they softly bow)  
And seem to whisper  
A lullaby

Oh, summer sun  
Hold me in your arms

I love you Mother Nature  
Your sunny fields of green  
I love your taste of freedom  
Your singing in the wind

I love, I love  
Breathin' deeply  
To smell your summer rain  
I love, I love  
When you kiss me  
With your sunlight on my face

Like a warm embrace

Oh, you little bird  
Tell the whole wide world  
That I save my love for her

I love you Mother Nature  
Your sunny fields of green  
I love your taste of freedom  
Your singing in the wind

I love, I love  
Breathin' deeply  
To smell your summer rain  
I love, I love  
When you kiss me  
With your sunlight on my face

I love, I love
